FastTrack Bundles for IBM Lotus Sametime 7.5.1

Gemini Systems is offering a special *FastTrack* package to jump start your enterprise collaboration with Lotus Sametime 7.5.1. This *FastTrack* targets companies with or without Domino messaging systems who want to quickly expand their real-time collaboration capabilities.

Lotus Sametime 7.5.1, with over 100 new features and enhancements, offers immediate, tangible returns. Access to chat histories, real-time spell check, federated instant messaging capabilities, integrated VOIP features and significant user interface improvements make it very easy for your users to collaborate. Sametime 7.5.1 can also help control costs through enhanced peer-to-peer file transfer capabilities; this extends the life of your messaging infrastructure by drastically reducing storage consumption on your mail servers. Integrated web conferencing capabilities help your organization eliminate duplicate infrastructure. The integrated client upgrade features reduce TCO by simplifying administration and operational efforts.

For a limited time, Gemini Systems will help you reap the benefits of the newest version of Lotus Sametime at a minimal cost. This discounted promotion combines options for pre-configured hardware, IBM Lotus Sametime software licenses and Gemini Systems' unmatched systems integration and development expertise, thus future-proofing your investment in Lotus technologies.
