

## Gemini Systems FastTrack Bundles for IBM Tivoli Identity Manager Express

Gemini Systems is offering a special FastTrack package for rapidly deploying IBM Tivoli Identity Manager (TIM) Express via a dedicated appliance-like server. TIM Express helps organizations manage user accounts, passwords and access permissions. The benefits of this solution include internal security threat protection, improved compliance and reduction in IT administrative costs.

TIM Express can automatically create and modify accounts according to established approval workflows. Self-care password management functionality further empowers users and reduces costly help desk calls. Centralized reporting offers a convenient way of locating rogue accounts and reduces preparation time for audits.

For a limited time, Gemini Systems will help you reap the benefits of TIM Express with a minimal investment. This discounted promotion combines pre-configured hardware, software licenses and Gemini Systems' unmatched expertise to help you gain control of your user account management processes.
